

Dear Bro. in Christ

In assisting you in your general understanding of the Book of Zechariah - especially the first six chapters on the 8 visions and prophecy of Zechariah - may I (if I have not done so already) - connect you to my FREE e-book which is about 500 pp.+ on what Dr. John Walvoord once called the most stereoscopic presentation of the prophetic in Scripture (viz., the Book of Zechariah), giving us an altogether comprehensive look at the Plan and Purpose of the Almighty.

The title is: [UNSEALING THE END OF DAYS - The Visions and Prophecy of Zechariah](#)

You'll break a few sound barriers reading it but it is well worth it!

Indeed, I would be altogether pleased to review your material. Lately, I have come across some astounding mathematical calculations relative to Earth's reflections of the New Jerusalem and, of course, our serious interest in these matters is here-under detailed.

We have made substantial discoveries of Pyramids in China which the communists have apparently tried to hide - grief, they are such treasures, the Chinese government should be proud of them - but, alas, since they are tied to Shem (the father of the Chinese) and next to the Cradle of Chinese civilization where Mao actually started his revolution (Xi'an - pronounced, oddly enough as Zion) and whose base line measurement is precisely 756' (which comports with that of the Great Pyramid of Giza) and whose elevation is 72' giving us two sets of 144' (if "cubed") - ah, what an amazement - and I had the honor of presenting this discovery to a group of Chinese brethren in Los Angeles.

Also, we've gotten a tremendous amount of information and measurements as a result of the NEBRA SKY DISK which was discovered at the turn of this 21st. Century (Note: "21" which is a fractal of the 2.1' of the Sacred Cubit - just a point of misc. interest) near Leipzig, Germany - this, Patrick, is one of the most incredible archaeological-navigational artifact ever discovered on the Earth and most certainly the oldest (1700 B.C.) - it is 12.6" in diameter - it was discovered nigh simultaneously with the most ancient Neolithic observatory upon the face of the earth (could be as old as 4,900 BC - although I doubt that a little bit since it would put it outside the pale of Earth's human history which the Bible concludes is 6,000 years).

The Goseck Observatory, also near Leipzig (about 25km from the discovery of the NEBRA SKY DISK) is an absolute amazement. It is classical Neolithic Circular with moat and wooden posts, berm and denoting the summer and winter solstices at its openings. It initially does not appear to reflect upon the New Jerusalem's configurations in that it is 246' in diameter but when the "squaring of the circle" is accomplished - along with diagonals (upon the face of a six-sided cube (artificially made) - then the observatory absolutely comes to life!

**THE GOSECK CIRCLE/RING - CENTRAL GERMANY - DIMENSIONS**

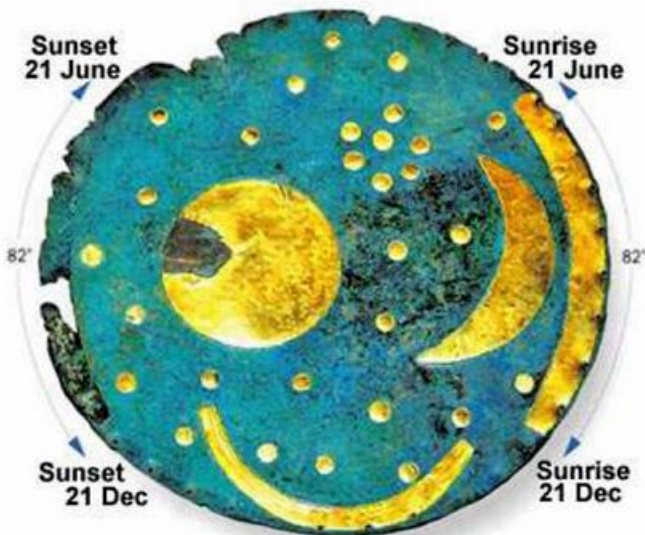

Each Face of the Goseck Observatory has 1680 Linear Feet (4 Edges of a Sq. 2 Diag. or  $1680/2.1'$  (SC) = 800 SC or  $1680' * 6$  Faces = 10,080 LF or Drop Zero = "8" = Infinity and "18" = the "18" of the New Jerusalem...Sacred Cubit = 2.1'

$246' * 4$  Edges of a Square = 984'  
 $348' * 2$  Diagonals = 696'  
 $984' + 696' = 1680' * 6$  Faces of a Cube = 10,080 Linear Feet or 1680'/

**THE NEBRASKY DISK – WORLD’S OLDEST ADVANCED ASTRONOMICAL CLOCK**

40 "DOTS" surround its circumference indicating  $360^\circ \div 40 = 9$  and  $360^\circ * 40 = 14,400$  or the "144" of the New Jerusalem with the "9" as the SUN of Righteousness?

Please note the fact that there are 30 planets scattered throughout - the least of which, the Pleiades and its 7-clustered stars (upper center to the

right facing on the left visual) - there is the obvious Sun (having been damaged by the original founders of the disk) - the gold color is actual gold and the green is patina bronze - other artifact found in connection with the disk including an attached strap indicate the 1700/1800 BC dating in that metals cannot give us proper carbon dating.

Now, also note that there are 3 stars with the half-moon-shaped object which some suggest is the "Sun Ship" - Orion's Belt is a somewhat impossible observation at the Leipzig latitude - there, of necessity, being some 26/28 deg. mandatory tilting of the Earth's axis to expose ORION'S BELT (so identified by many experts who have observed the Nebra Sky Disk) at this latitude which without tilting of the Earth's axis would normally be seen at Luxor, Egypt. This gives rise to the THEORY that since the time of Joseph's 7 years of plenty/7 years of famine took place around this date (1700/1800 BC) that a "cosmic disturbance" (e.g., the infamous Planet 7X - 7 times the size of Earth) orbited near Earth and caused the tilting of her axis due to gravitational interference (Note: the mercurial Planet X or 7X is also tagged Nibiru and may reappear at irregular intervals approximating every 316 to 324 Solar Years with the next appears somewhere between 2016 and 2021 - so says [Gill Bossard](#) with compliments to his art work below) -

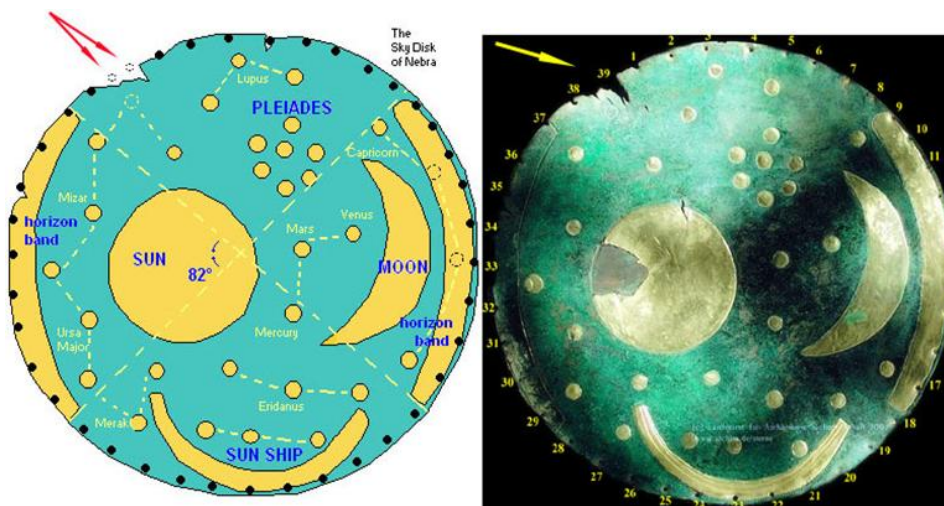

Moreover, these astronomical configurations are of some immediate interest in reference to the Sacred Cubit's 25.20" dimension and of Plato's Optimal Number of Societal Bliss (Magnesia vs. Atlantis or New Jerusalem vs. Babylon the Great):

### NEBRA SKY DISK FACTOIDS vs. NEW JERUSALEM

- The disk is precisely 32 cm or 12.6 inches in diameter, which is a "Greek Foot" but is also 1/2 of a Sacred Cubit or  $12.6'' * 2 = 25.20''$  or 2.1 English Ft.
- Squaring the Circle of the Disk we find Plato's Optimal Number of Societal Bliss wherein  $12.6'' * 4 = 50.40''$  (i.e., 5040) or  $50.40/2 = 25.20''$
- The diagonals of the squaring of the circle precisely round to 18" each (inches) \* 2 = 36" or the fractal of 360 deg. in a circle or 360 prophetic days.
- A diameter at 12.6" produces a circumference of the circle using Giza PI ( $480.9''/153$  (fish at Galilee) =  $3.14313725 * 12.6'' = 39.6''$  which is the radius of the earth's diameter \* 2 = 7,920" or the fractal of earth's 7,920 mile diameter.
- The "Area" of the Squared Circle = 159 sq. in. \* 6 cubed faces = 954 sq. in. or a fractal of Earth's distance from the Sun at apogee of 95,040,000 miles (954) or the New Jerusalem at 7,920,000' \* 12 (cube) = 95,040,000 Miles.
- $36'' = 2$  diags. \* 6 faces of the cube = 216" or 21,600 Nautical Miles of Earth

There are at least 39 or 40 (shown in black) circular dots surrounding the perimeter of the disk - so what's with the 39/40 and the 30 planets? You be the judge:

The "circular" nature of the the stars and the black dots seen above are to alert us all to the 360 deg. of a circle; therefore:  $30 * 360 = 10,800$  deg. or "18" (eliminating zero) which "18" is the cardinal number of the New Jerusalem's 18,000 mile 12-edged perimeter with each edge being 12,000 furlongs (Rev. 21:16) \* 660' (1 furlong) = 7,920,000'/5,280' (1 mile) = 1,500 miles \* 12 edges of a cube = 18,000 miles or "18" - this bears out the "heavenly character" of the New Jerusalem (descending out of heaven prepared as a Bride for her Husband).

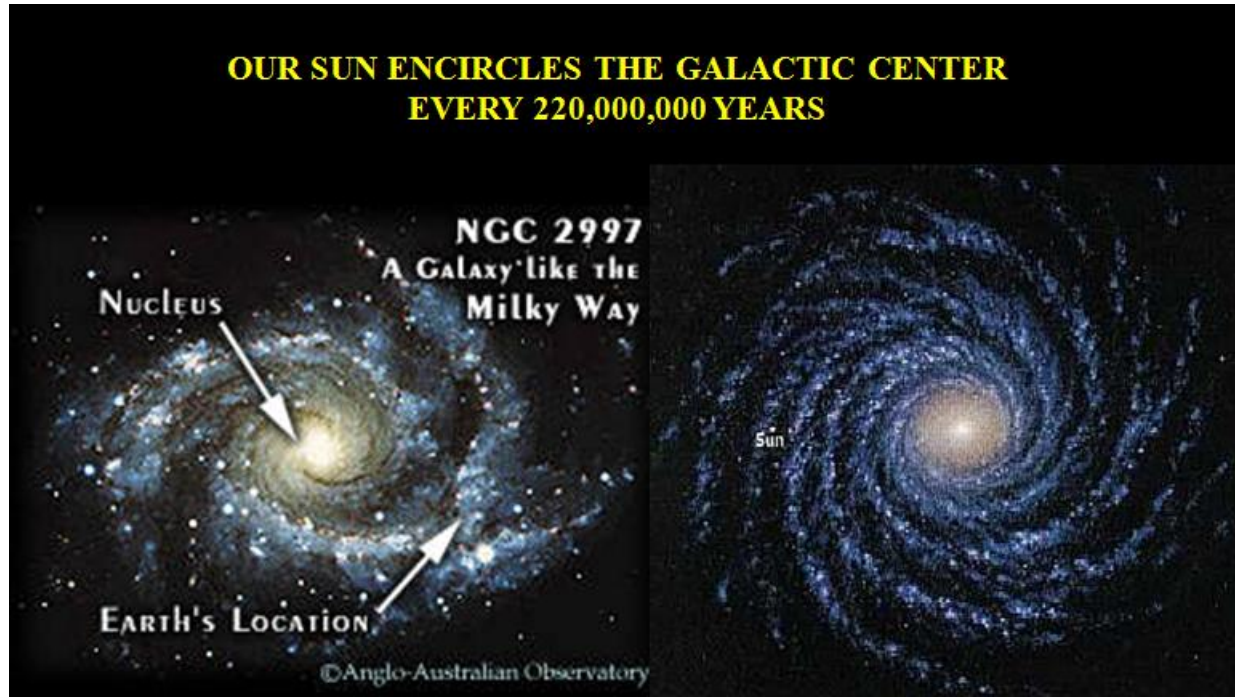

But she is coming to the Earth! Therefore, the 39/40 "black dots" or  $39 * 360$  deg. = 14,040 deg. or "144" or  $40 * 360$  deg. = 14,400 deg. or "144" (again) and this "144" is the Wall of the New Jerusalem which is according to Rev. 21:17 the "144 cubits" Wall of the New Jerusalem (not its width, length or height - just 144 cubits - giving us  $2.1' * 144 = 302.4$  Feet NJ Wall which is a fractal of the perimeter of the Great Pyramid of Giza at  $756' * 4$  sq. = 3024 Linear Feet/Base).

Therefore, both the "18" (Heavenly) and the "144" (from the Earth where the 144,000 redeemed from among men and sealed upon the earth - Rev. 14 and Rev. 7) and these two "dimensions" constitute the cardinal numbers of the New Jerusalem - therefore:  $18 * 144 = 2592$  and this "2592" is a fractal/resemblance of the Great Precessional of the Equinoxes which is 25,920 years or  $2592 = 2592$ . This presents the garland atop the Woman's head of Rev. 12 which depicts in turn the 12 constellations (stars) of the Zodiac/Mazzaroth - her history is written in the 12 constellations and her victory over the Dragon is likewise! Again, I have to remind my beloved brethren that Joseph saw but 11 stars (Gen 37:9), not 12 - the "12" is reserved in totality for the Woman seen from Genesis 3:15 (Eve whose Seed bruised the Serpent's head through the crucifixion persists in Israel's birth of the Messiah in Rev. 12 and persists until the Woman of Rev. 21, the Woman, the Lamb's Wife is seen in her fullness as the Bride of Messiah descending to Earth as the New Jerusalem).

Also - since you spend so much time in the "heavens" - I thought that when you'd be viewing the Milky Way Galaxy - Earth's Galaxy - you might deeply appreciate this little factoid that will utterly blow your mind (I hope) - and that is this:

The Solar System (Sun + 8 planets and regalia - moons, etc.) take some [220,000,000,000](#) (million) years - based on 360 deg. circumference

of a circle - the prophetic year likewise being 360 days - to orbit around the Galactic center of the Milky Way; therefore - behold: (Note where our Sun is located.)

But isn't this a mind-blower? Of course, it's but a kawinkadink in the sum total of an atheist brain freeze!

### **EARTH & THE SOLAR SYSTEM'S ORBIT OF THE GALACTIC CENTER OF THE MILKY WAY**

- ❑ The Solar System Orbits the Galactic Center every 220,000,000 Years
- ❑  $220,000,000 * 360^\circ$  in a Circle = 79,200,000,000 Degrees or converted to 360 Prophetic Days or "7920" is a fractal of the Earth's Diameter of 7,920 Miles.
- ❑  $79,200,000,000 \text{ Days} * 24 \text{ Hours} = 1,900,800,000,000 \text{ Hours}$  "seen as" - 1...9...8 or the "18" of the New Jerusalem embracing the Sun of Righteousness "9"
- ❑  $1,900,800,000,000 \text{ Hours} * 60 \text{ Minutes} = 114,048,000,000,000 \text{ Minutes}$  "seen as" 1...144...8 or the Two Prime Numbers of the New Jerusalem: "18" and "144"
- ❑  $18 * 144 = 2,592 =$  the Fractal of the 25,920 Years of the Great Precessional of the Equinoxes or the Garland atop the Woman's Head in Rev. 12

BUT, little is much when God is in it - what do I mean by that little remark?  
Ah, the presence of the Almighty embodied in the Ark of the Covenant has profound meaning in the universe...BEHOLD:

### **THE MILKY WAY & THE ARK OF THE COVENANT**

□ **220,000,000 Years = Sun's Orbit around Galactic Center multiplied by 360 Days/Degs. = 79,200,000,000 Days/Deg. = fractal of Earth's Diameter of 7,920 miles or the edge of the New Jerusalem's 7,920,000 Ft.**

□ **Ark of the Covenant is 2.5 SC Length – 1.5 SC Height/Width or 22 Linear SC & Volume of  $2.5 * 1.5 * 1.5 = 5.625$  Cubic Sacred Cubits (SC)**

□ **220,000,000 Yrs./22 SC = 10,000,000 : 1**

□ **79,200,000,000 Days/Deg./22 SC = 3,600,000,000 or "360" – The Circle  $360^\circ =$  Eternal God – same for Earth's Diameter & Edge of New J.**

Just saying - what are the chances? Oh, about 10 million to 1 or so! Better yet, about 3.6 billion to 1 - something like that. Yes, I'm keenly aware that we're at times comparing apples to oranges; however, it is the "number" to which I find amazement.

Keep up the study and research - I'm very confident that the Lord has much more for our admonition and encouragement in these last of the last days.

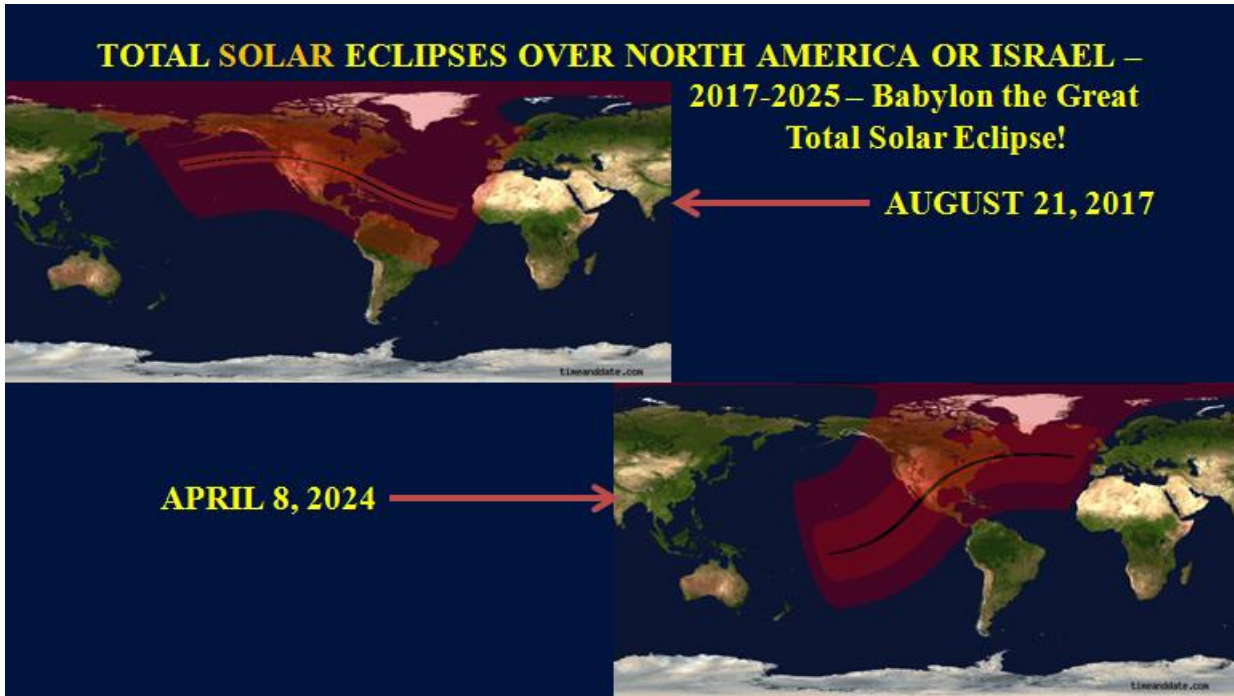

We are currently revamping our web sites - Dene will "manage" The Tribulation Network but my articles and the like will be there and I will have another site with Dene's material on it - we're simply expanding - both of us we'll be dedicating more books/kindle to the "cause" - of course, as you can readily see/read in THE FINAL BABYLON we're taking on some "big hitters" to say the least.

**FOUR BLOOD MOONS 2014 and 2015 AD...upcoming....**

Finally, I do believe there is a direct correlation between the TETRAD BLOOD MOONS discovered so recently by Mark Biltz from Tacoma, WA and the future 70th Week of Daniel's prophecy yet in fullness to be fulfilled.

Two of the four appear on Passover and two of the four appear at the Feast of Tabernacles (Succot) - the first and seventh Feasts of the Lord...like bookends enclosing the other 5 feast days. Their import impacts Israel's history past and future - in this case, future. How's that? Well, I for one, affirm with Mark that Passover and Succot will have profound meaning for the Jews in the coming 70th Week - Passover will commence the 70th Week with the Antichrist's presence as the False Messiah to Israel in his infamous COMPACT with "the many" and that 1,260 days later on the Hebrew calendar will appear the Feast of Tabernacles where he's entitled, due to the Abomination of Desolation, THE BEAST - this will occur as prophesied by Daniel and so mentioned by Jesus in Matt. 24:15.

Likewise, there will be several TOTAL SOLAR ECLIPSES - thus, the Moon will be turned to blood and the Sun into darkness before that Great and Terrible Day of the Lord - notwithstanding it simply states "before" giving us a somewhat uncertain time frame - nevertheless, there are two distinctly TOTAL SOLAR ECLIPSES which Mark asserts (i.e., "solar eclipses"), and I concur, bode ill for Gentile World Powers - and in this primary case, OVER THE UNITED STATES OF AMERICA - solely within this 7 year time frame (2017-2024) - both just before the commencement of the "the week" (we so conjecture) and just before the terminus of the week (again, so conjectured)! Could this be the foreboding message to THE FINAL BABYLON? - I think we have every right to alert ourselves to SIGNS IN THE HEAVENS! Here's NASA's depiction - and, mind you, during these 8 years or so, these are the only Total Solar Eclipses over any of Earth's land masses of ANY population! I notice in both cases it appears that Chicago gets the "brunt" of the Solar Eclipse but that the final eclipse goes DIRECTLY OVER NEW YORK AND WASHINGTON D.C. but the fact that the bull's eye of the USA is affected each time is no small thing!
